SUMMARY

Full-Stack Developer with practical experience building scalable web applications using **ASP.NET Core 6 & 8** and the **MERN stack**. Proficient in designing and consuming RESTful Web APIs, database management with Entity Framework Core and SQL Server, and implementing secure authentication using JWT and OAuth 2.0. Experienced in end-to-end MERN stack development with React, Node.js, Express, and MongoDB, alongside cross-platform mobile development using **Flutter**. Familiar with **Docker** for containerized deployments.

SKILLS

Backend: ASP.NET Core 8 | C# | Web API | Entity Framework Core | REST APIs | C++ | Python
Frontend: React | TypeScript | JavaScript | Tailwind CSS | Vite | Razor Pages
Database: SQL Server | MongoDB | PostgreSQL | Redis
Auth & Security: JWT | OAuth 2.0 | ASP.NET Identity | 2FA/OTP | Cookie Based Auth | Role-Based Access Control
Other: Flutter | Swagger | SignalR | Git | Postman | FastAPI | Kafka | Microservices | Docker | CI/CD concepts

PROJECTS

• EStore

A production-style e-commerce store implemented with ASP.NET Core MVC. It demonstrates practical patterns for building maintainable web applications and is suitable for prototyping, technical demonstrations, and learning real-world development workflows.

Tech Stack: C# | ASP.NET Core 8 | Entity Framework Core | SQL Server | Razor Views | HTML / CSS / JavaScript | Bootstrap | jQuery | Git | dotnet CLI | OAuth 2.0

• ShopSphere

A comprehensive full-stack e-commerce platform that offers a modern, responsive user experience for browsing products, managing shopping carts, secure checkout, and features a dedicated admin dashboard for managing inventory, categories, users, and orders.

Tech Stack: MongoDB | Express.js | React | Node.js | Vite | Tailwind CSS | Axios | JWT | Bcrypt | Mongoose | React Router

• HealthCare+

Full-stack microservices application for managing healthcare appointments with role-based access control (Patient, Doctor, Admin). Implemented scalable architecture with real-time notifications, event-driven processing, and distributed caching for performance optimization.

Tech Stack: Next.js | Node.js | Express.js | PostgreSQL | Redis | Kafka | Socket.IO | TypeScript | Tailwind CSS | Passport.js | JWT | Bcrypt | Docker

• AWSOME (FYP)

A full-stack SaaS platform that enables users to design, visualize, and deploy AWS cloud infrastructures with AI-powered generation, real-time cost intelligence, and comprehensive performance monitoring. Combines interactive architecture visualization with automated Terraform deployment, educational resources, community collaboration, and advanced security features. -.

Tech Stack: React | TypeScript | Vite | Tailwind CSS | ReactFlow | React Query | Recharts | Node.js | Express.js | MongoDB | Mongoose | AWS SDK v3 | JWT | Stripe | Python | FastAPI | LangChain | Groq LLM | ChromaDB | OAuth 2.0 | 2FA/OTP

PROFESSIONAL EXPERIENCE

.NET Developer | XInfo Tech (Internship)

June 2025 – Sept 2025

- Collaborated with senior developers to design, develop, and maintain high-performance RESTful Web APIs utilizing .NET Core 8 and C#.
- Implemented and optimized database schemas and data-access layers using Entity Framework Core and SQL Server, improving query execution efficiency.

EDUCATION

COMSATS University Islamabad

2022-2026

- Bachelor of Computer Science

Fazaia Inter College, E-9

2018-2022

- ICS (HSSC)
- SSC
